## DIMENSIONS AND PRICING

Learn more

The Soho is a simple yet rich style that will fit in with a modern design beautifully. It is built in African mahogany wood, which is an exotic and beautiful wood. The mahogany wood grain is really the star of the show with the Soho, in fact, we intentionally left the design simple to allow the mahogany grain to shine. To add more depth and make the wood grain pop, we also offer the Soho in a two-tone finish where the body of the headboard and footboard are espresso (nearly black) and the rest of the bed is natural mahogany. Couple that with simple, sleek hardware on the nightstands or captain's bed, and you have a recipe for a beautiful modern centerpiece in your bedroom.

## DESCRIPTION

The Oxford TV Bed celebrates everything that is traditional design. Its design is cozy and welcoming, and has had a place in America for hundreds of years. From the pencil molding around the top to the two-panel design on the headboard and TV lift footboard, the Oxford is built to display the beauty of traditional furniture. You could imagine finding the Oxford in a colonial-style home in New England, flanked by real-wood wainscoting. As woodworkers, we specifically designed the Oxford to bring back the beauty of days past. Days where real wood and quality craftsmanship were the main ingredients in furniture and things like MDF and particle board existed only in nightmares.
